

SYMPOSIUM

ADVANCING GUT MICROBIOME RESEARCH FOR APPLICATIONS IN HEALTH AND FOOD INNOVATION

November 25 – 26, 2024, Kuala Lumpur, Malaysia

This Symposium will provide an exciting platform to share latest updates in microbiome research, from clinical to translational science and applications. Global and regional experts will exchange knowledge and discuss important topics including dietary recommendations to improve nutrition and health, innovations in technology and product development, as well as regulatory developments and consumer insights.

OBJECTIVES

- Advance knowledge link on gut microbiome to health and disease, focusing on Asian populations
- Provide regional landscape and initiate collaboration in Southeast Asia for data generation, research, and product development
- Promote innovation and regulatory development for consumers and the market
- Develop insights and recommendations for research and regulatory guidance
- Facilitate discussion on pre-competitive collaborative research opportunities

PROGRAM HIGHLIGHTS

- Human Gut Microbiota — Updates on Science and Research in Southeast Asia
- Gut Microbiota and Health in Asian Populations: From Clinical Data to Applications (Aging, Brain Health, Infant Microbiome Development)
- Food Innovations and Technologies to Improve Gut Health and Health Outcomes
- Developments in Regulations and Consumer Insights

FEATURED SPEAKERS

Prof. Rob Knight
Centre for Microbiome
Innovation, University of
California San Diego, USA

Prof. Yuan Kun Lee
Yong Loo Lin School of Medicine,
National University of Singapore

Prof. Patricia Conway
Singapore Centre for Environmental
Life Sciences Engineering (SCELSE),
Singapore

Prof. Lay Ching Chai
School of Medical and Life Sciences,
Sunway University
Malaysia

Dr. E Siong Tee
TES NutriHealth Strategic
Consultancy, Malaysia

Stay tuned for more eminent speakers!

CALL FOR POSTERS

Researchers from academia, industry, and government institutions are invited to register for the symposium and present their research work!

Postgraduate students submitting a poster can enjoy a 20% discount on their registration fee.

For the submission guidelines and more details, please visit our event page.
